RE: CHARTER BUS SERVICES | BFY20/21-02

This clarification is being issued to respond to an inquiry for Bid # BFY20/21-02: Charter Bus Services.

- 1. While we keep background checks on file for each driver, it does go against privacy policies to provide them to other parties. Will this be an issue and prevent us from entering our bid?**

The bidder **must**, upon request from the College, provide the College the ability to audit the Contractor's background check process, which shall include the ability of the College to view a background check. The background checks are not required to be submitted with the bid but must be available for the College to inspect upon request.
