

# SHAPING OUR FUTURE

Each year, because of the support from the **Shaping Our Future** Annual Campaign, the Union County College Foundation is able to offer scholarships to the College's most deserving students and grant opportunities to faculty and staff for projects that enhance Union County College's educational programs.

With more than 70% of Union County College students applying for financial assistance, **WE NEED YOUR HELP** to ensure that all of our students have access to the affordable, high-quality education offered at Union County College.

Contributors to the **Shaping Our Future** Campaign receive credit toward recognition levels on the **Tree of Education**, a beautiful cherry wood, copper and brass sculpture in the Richel Commons on the Cranford Campus.

The **Shaping Our Future** annual campaign ends on June 30. Recognition for contributions is based on the Union County College Foundation fiscal year: July 1 – June 30. The Annual Report recognizes donors of gifts made during this period.

*“Please know how important your support is to me and to all of the students on campus. I am the first in my family to go to college, which is a big step for my future. Again, please know how much I appreciate your support of the Foundation.”*

Amy P. Miranda
