

Blockchain Technology, Associates in Applied Science Career Information

Blockchain knowledge can be applied to various career paths across various industries, including, but not limited to: Supply Chain, Banking/Finance, Business, Cryptocurrency, Project Management, Engineering, Computer Science & Information Technology, and Healthcare. This certificate focuses on blockchain fundamentals that can be applied to Supply Chain, Business, and Finance. You do not need to have a prior degree to pursue this certificate, however, degree completion is essential to advance in the field. This certificate can also be combined with a degree across various majors to enhance current skill set, diversify areas of expertise, and grow your career. After completing the Certificate of Achievement in Blockchain Technology, you can apply the credits and continue your education in the Blockchain Technology Associate in Applied Science degree program.
