

UCNJ Career Services Career Platforms

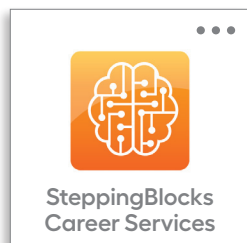

Handshake

Discover job and internship opportunities. Create profiles, upload resumes, and find positions that match your interests and qualifications.

VMock

Enhance your resume and elevator pitch with instant AI feedback. Improve content, structure, formatting, and presentation for greater effectiveness.

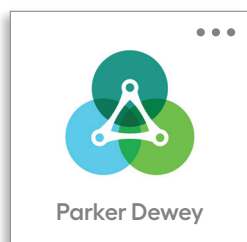

SteppingBlocks

Explore career paths based on your skills, interests, and goals. Access job trends, required skills, salary information, personality assessments, and personalized career plans.

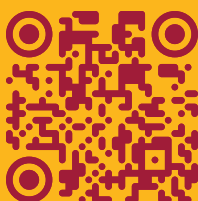

Focus 2

Focus 2 Career is an online, self-guided career and education planning system. It helps users pick college majors, explore occupations, and map out career paths. By taking short assessments on your interests, values, and skills, the tool matches you with careers that fit your personal profile.

Parker Dewey

Gain real-world experience through short-term, paid professional projects called Micro-Internships. The flexible opportunities will build skills, support career exploration, and develop connections with employers.
