NPTNJ ALTERNATE ROUTE TEACHER PREPARATION

New!

Introduction to Teaching: 50-Hour Pre-Service Component for the New Pathways to Teaching in New Jersey, Alternate Route Program

The New Jersey New Pathways to Teaching program is an alternate route to teacher certification program. The program allows students with four year college degrees who meet the program criteria to become a certified New Jersey teacher even though they did not complete a traditional undergraduate teacher preparation program.

Effective September 1, 2017, the New Jersey Department of Education has significantly changed the educational requirements for teacher education programs. Under the new program, all New Pathways students must take a 50-hour Introduction to Teaching class prior to obtaining a teaching position. This class includes 30 hours of instruction in classroom management, assessment tools, lesson plans, learning strategies, technology and diversity in the classroom, as well as job search strategies for teachers. The student must observe a classroom for an additional 8 hours. Twelve hours of clinical experience in which the student teaches or tutors, or is involved in other hands-on instruction work, is also required.
